Announcements and items of note

General Stuff: Please use my Paypal account (stephenbrunt@yahoo.co.uk) for all Lords' 24 payments. If you cannot use this facility then please let me know and I will see what I can do about filtering US funds to my account. I may also stop using the throneworld email address due to the mass of spam I'm getting!

Order Form: Please use the [standard excel order form](#) from now on. I'll update the site with a link to it next week when I get some time. This is important as it helps me process the turn more quickly. THIS IS NOW MANDATORY.

Non-Payment: some of you still owe me some cash. Although it may come as surprise that this is not my main source of income, I see it only polite that you pay for the occasionally night out. So, if you're under zero next turn I'll not process your orders.

Version 6: Lords 24 uses version 6 of the basic rules

The Map: The map now includes India as well as Europe, Central Asia and Africa. I've greyed out repeated areas on the maps to make my life easier. However, this means some player nations are split across more than one map. I may increase the size of the main map but I'll have to think on this.

Tithes and Tribute: I think these are automatically updated by the stats program, so no need to declare them in your orders.

Control of the Papacy and Religious Orders: In Lords 24 we will not always have a player Pope (or Caliph etc for that matter) and the following

rules are used to determine which player faction controls the Pope's actions, Papacy Rules. I've also added some stuff about gaining support from their armies

How to make your GM happy (PLEASE READ! REALLY!):

Please send any and all Lords24 correspondence to stephenbrunt@yahoo.co.uk .
